PARTY HAS NARROW ESCAPE

Cactus Blocks Automobile That
Was About to Catapult Down
Punchbowl Yesterday

Badly Scared and Scared Victims
of Accident Relate
Thrilling Experience

Precipitated down the steep sides of Punchbowl by a false turn of the wheel on the part of the chauffeur, who had swerved from the road to escape collision with another machine coming down the right-of-way at breakneck speed, a party of six young tourists from the Toyo Kisen Kaisha S. S. Shinyo Maru escaped certain destruction at 4:30 o'clock yesterday afternoon when Forbes Sutherland, one of the party, grabbed the wheel from the terror-stricken driver and drove the machine into a clump of cactus on the very edge of the ledge.

Badly frightened as well as scared and bruised from the rapid shock taken by the machine, the tourists told their story last night, besides having the accident reported to the police.

"We were going up the road leading to Punchbowl crater at a reasonable rate of speed," Sutherland explained, "when a big seven-passenger car made a sudden appearance around a corner of the road a short distance ahead. The car was going at a fast clip. Seeing the machine almost on top of us, our driver, swerving sharply, took the outside of the road thinking to graze by. Either he underestimated the distance or the other machine pressed him too closely, for the next second the front of our car dipped sharply and it occurred to me in a flash that we were on our way down the sides of the crater."

"Looking back at it now, I guess I had about made up my mind that my last day had come. A man thinks pretty quickly at a time like that, however, and in half a second I had hold of the wheel and was twisting it with all my might. The wheels slipped and then turned and the machine, twisting sideways, seemed to totter over. We jumped out without wasting any time, and found that the car had come to a stop on the edge of a precipice being blocked by a heavy cactus. Looking down a good many feet below, we could see the house-tops of Honolulu."

"It was a narrow squeeze all right and we were mighty lucky to pull out of it as well as we did."

The machine, only slightly damaged, was dragged back up the precipice with difficulty at a late hour yesterday afternoon.

The six young tourists were still talking about their hair-raising experience when they sailed on the Shinyo Maru for San Francisco this morning at nine o'clock.

FILIPINO MAKES ATTACK UPON JAIL TRUSTY

Arrarent Attempt Is Made to
Break Jail, Yesterday Afternoon, by Rodriguez

Domingo Rodriguez, one of four Filipinos under arrest and charged with the murder of Lim Ah Kam and his wife, Lum See, at the roadside store near Fort Shafter some weeks ago, yesterday afternoon made an unsuccessful attempt to either gain his liberty from the central police station, or to inflict serious bodily injuries, if not death, upon Juan de la Cruz, who has been serving sentence at the receiving station for some months past.

A heavy iron kettle was the implement, that, placed in the hands of Rodriguez, came within the narrowest possible margin of ending the existence of the jail attendant.

The assault took place at an hour when the prisoners held in detention were being served with supper. De la Cruz, together with several other trustees and employees about the jail, was engaged in work when, in passing the line of prisoners, de la Cruz was given a stunning blow over the

DR. SOYEDA URGES JAPANESE TO BE PATIENT GIVES GOOD SOUND ADVICE TO COUNTRYMEN

Photograph of party of celebrities arriving yesterday. From left to right: Dr. Juichi Soyeda, Mr. Tadao Kamiya and Dr. Hamilton Wright Mable. Star-Bulletin Staff Photographer.

Believes Great Misunderstanding May be Rectified by Nipponese Showing They Are Enlightened And Cultured

Advising that they be patient and to overcome the prejudice against them which exists in some parts of the United States by acting in a dignified and gentlemanly way at this time when California is resolved upon enforcing anti-alien legislation, Dr. Juichi Soyeda, official representative of the Nichi Bei Doshi Kai, an association of the Japanese chambers of commerce, and of the Japanese-American Society, last evening during a speech made before nearly 2000 Japanese at the Central Institute on Nuuanu avenue, counseled his countrymen to work and wait until their true worth is recognized by the people of the United States. Dr. Soyeda, whose mission is with the Japanese of California and the American officials of California and Washington, was cheered by a large number of Japanese when he sailed for San Francisco on the Shinyo Maru at 9 o'clock this morning. He was accompanied by Sadao Kamiya of the Tokio Chamber of Commerce.

"When the American people appreciate the true worth of the Japanese,"

when the great misunderstanding which now exists between the two people is cleared away by a more thorough knowledge and an appreciation by the people of each land of the conditions in the other, then I am sure that the American people will have no longer a desire to pass laws against us," Dr. Soyeda said last night during his speech. "We must act with dignity and with a sense of responsibility at the present time so that the American people will be impressed with the fact that we, too, are among the civilized and enlightened people of the globe. We must maintain our national honor at all costs, but at the same time we must be patient and wait until the American people, through a better knowledge of our actions, our customs and our institutions, understand the true spirit of the Japanese. We are asking of the American people many things, but first we must show ourselves worthy. Then our requests will be readily granted."

"We must realize that in America

(Continued on page three)

MABIE REGRETS ACTION TAKEN BY JOHNSON

Sailing for San Francisco on the Shinyo Maru at nine o'clock this morning, Dr. Hamilton Wright Mable, associate editor of the Outlook and for the past six months lecturer on American habits and institutions before the Japanese universities, stated that, in his opinion, any further difficulties arising between the Japanese and the American people can be amicably settled by a definite immigration agreement which will probably be entered into within a short time by representatives of the two powers.

"I regret very much," Dr. Mable said, "that Governor Johnson has seen fit to sign the anti-alien act. I do not believe that the people of California have found the best way out of the difficulty they believe themselves to be facing. The Japanese government has at all times shown itself willing and desirous of restricting immigration to any extent desired by the American people. I believe that, if representatives of the two nations had met, an immigration agreement satisfactory to both could have been readily settled upon."

"After a study of the Japanese people, extending over a period of six months, I have the highest regard for their industry and ability. I hope, when I reach the states, to be able to present to the American people opinions on Japan which will have some influence in doing away with whatever prejudice against the Japanese now exists in our country."

At a reception yesterday afternoon Dr. Mable was the guest of the Japanese merchants' association. He is accompanied by his wife and daughter.

MURDER CASE CONTINUED

The case of Chun Kim Sut and Chun Wong Shee, both of whom are accused of murder in the first degree, was continued today by Circuit Judge Robinson to be re-set for trial. It was scheduled to begin today but the continuance was granted with the consent of counsel for the prosecution and defense because of other business in the courts. The persons accused were indicted last year. They are man and wife, and the indictment followed the second of two mysterious deaths of children in the family.

SCHEDULE OF T. K. K. COMPANY IS REARRANGED

The big Toyo Kisen Kaisha liner Shinyo Maru, that sailed from Honolulu for San Francisco at nine o'clock this morning taking a small delegation of lay-over passengers, it is believed will again reach this port on a new and more satisfactory schedule. The addition of the intermediate liner Hongkong Maru to the trans-Pacific fleet has necessitated a rearrangement of the joint Pacific Mail and Toyo Kisen Kaisha schedule. Under the present arrangement Saturday is the usual sailing day from San Francisco, with an occasional departure on Friday. Under the new schedule sailings are arranged without reference to the day of the week. In the course of the year every day except Sunday has its turn as sailing day from the Coast port.

The Hongkong will leave Yokohama July 19 and is due here July 29. The disturbance caused by its injection into the schedule will be felt sooner than that the Tenyo Maru, scheduled to leave San Francisco May 17, was dispatched May 16. The Shinyo Maru will leave the Coast June 4 instead of June 7 and the Chiyo's July 5 sailing has been changed to July 1.

There will be changes affecting Pacific Mail departures also. The new schedule is expected to arrive here in a few days. On the new schedule a place for the Hongkong Maru has been found between the Persia and the Korea, but the Hongkong will not find its proper location until after its departure from the Coast, August 12, when it will sail in company with the Korea.

SUGAR
SAN FRANCISCO, May 19.—Beets: 88 analysis, 9s. 3/4d. Parity, 3.94 cents. Previous quotation, 9s. 3/4d.

PROFIT IN OIL.
The annual report of the Honolulu Consolidated Oil Company has been printed, which shows the net profit for the year ending March 31, 1913, to amount to \$199,363.99. The cash on hand, as given in the report, is \$1,828.33, with accounts receivable, \$92,177.68. The total sales during the year amounted to 1,076,049.09 barrels, valued at \$580,450.73, sold at an average price of \$5394. The properties of the company are valued at \$2,686,822.56.

RUMOR GIVES SUGAR FORCES TWO SENATORS

Walsh of Montana and Simmons of North Carolina Are Said To Be Against Lifting Sugar Tariff

Unconfirmed reports that two more senators had bolted from the Democratic party on the sugar schedule in the Wilson-Underwood tariff bill, and would throw their vote with the minority to defeat the free sugar feature of the measure, caused a flurry in the stock market this morning.

It was rumored about town that a cable had been received by a prominent sugar man in which it was stated that Senator Walsh of Montana and Senator Simmons of North Carolina, chairman of the senate finance committee, had said he was afraid four western Democratic senators would now refuse to support the free sugar program.

The reported recipient of the mes-

***** SNAKES ON BIG ISLAND ***** ST. PATRICK IN DEMAND

Wanted, an Hawaiian Saint Patrick, to drive the snakes out of the Big Island.

For the first time in history, according to all the information that can be gathered from old records and old residents, a live snake has been found at large in the Hawaiian Islands. The serpent has entered the Paradise of the Pacific.

Lieutenant John P. Edgerly, C. Company, Second infantry, killed a snake near the Olia plantation, Hawaii, during the recent expedition of the command to the volcano. The reptile was lying on the main road when Lieutenant Edgerly, riding a motorcycle, ran over it. The officer stopped his machine, returned and finished the snake with a stick. He made an examination, and found no poison fangs, although the marking was the peculiar black diamond on dull brown, often seen on venomous reptiles.

Lieutenant Edgerly is a comparatively newcomer to the islands, and while he knew that the group was supposed to be snakeless, he did not realize the great importance of his discovery, and after a good look, left the snake where it lay in the road. By the time the column of soldiers that were following reached the spot, the dead snake had disappeared.

The news that a snake had been found on Hawaii created tremendous interest along the route of march of the soldiers, and also in Hilo, when the company returned there last Sunday.

A. L. Clause, in charge of the department of agriculture experimental station at Glenwood, was of the opinion that the snake had come from the mainland in balled hay, and had in some mysterious manner survived imprisonment, and made its escape when the bale was cut.

"The snake which I killed," said Lieutenant Edgerly this morning, "was about two and a half feet long, and was not a very terrifying object. I examined its jaws and found no poison fangs, nor was the head shaped like that of poisonous varieties."

NIAGARA DUE HERE WITH A RECORD CARGO

New Liner, on Maiden Trip,
Carries Passenger List of
622—Arrives Tomorrow

Arrangements were made by the Star-Bulletin with the Hawaiian Electric Company today whereby the arrival in port of the big Niagara tomorrow morning will be announced and a well come as well will be extended to the magnificent new boat that comes to Honolulu for the first time. As several steamers are due tomorrow, the sighting of the Niagara will be announced with the usual three blasts from the Hawaiian Electric Company's whistle, but as the Niagara enters the harbor two long blasts will be sounded and fifteen minutes later, about the time she is docked at Alakea wharf, two more long blasts will be given. Thousands of persons are anxious to see the new steamship and this method is taken of announcing her arrival. There will probably be several series of three blasts during the morning, but the two blasts will herald the Niagara.

To reach the port at daybreak tomorrow morning, on a maiden voyage from Great Britain by the way of Mediterranean ports, Suez, thence to Sydney, N. S. W., and calling at Auckland and Suva, the handsome new Canadian-Australasian 13,000-ton liner Niagara is destined to prove an object of intense interest to local shipping people and Honoluluans in general.

President of Cuba In New Office Today

General Mario Menocal, who was today inducted into office as president of Cuba and Mrs. Menocal.

GENERAL MARIO MENOCAL IS NOW CHIEF EXECUTIVE OF THE REPUBLIC

The inauguration of General Mario Menocal as president of Cuba, which event is scheduled to take place today, will mean another holiday and general temporary suspension of grinding on the part of the sugar plantations. It is probable that a number of the smaller centrals which are reported to be working at a loss will take advantage of the event and suspend for the season on account of the low value of sugar and the consequent poor returns for grinding.

Mrs. Menocal, the new first lady of the land, is a woman possessing many accomplishments and charms.

HISTORIC GOLF IN PERIL SUFFRAGETTES ARE BUSY

Armed with Vitriol, They Threaten Ancient Course of St. Andrew's — Volunteers Called Upon to Patrol Night and Day That Tournney May Go On

[Associated Press Cable]
ST. ANDREWS, Scotland, May 20.—This little town in Fifeshire is stirred to its depths by attempts of the militant suffragettes to strike a blow direct at the heart of a venerable and ancient institution. Here, the home of golf, volunteers have been called upon to protect the historic course of the Royal and Ancient Golf Club from the attacks of the militants. They are attempting to ravage the putting greens and the volunteers are carrying searchlights and umbrellas to protect themselves from the vitriol which the suffragettes are threatening to spill on the greens. The aim of the militants is to prevent the holding of the amateur championship tournament next week. This tournament is one of the premier events of the golfing world and the militants are determined to stop it in the program of violence.

International Yacht Race Set For September, 1914

[Associated Press Cable]
LONDON, Eng., May 20.—The New York Yacht Club's acceptance of the challenge of Sir Thomas Lipton to race for the America cup has been received here. The race will occur under present rules in September, 1914. Already the sportsmen of two continents are keenly interested in the race and many Britons are planning to visit America to see the next sailing of the historic event.

Johnson's Action Is Received With Regret

[Associated Press Cable]
TOKIO, Japan, May 20.—The news that Governor Johnson of California had signed the anti-alien ownership bill was received here very regretfully in official circles and with some irritation among the people. The government had hoped that the remonstrances of President Wilson, Secretary Bryan and others would prove sufficient to stop the signature of the bill. It is evident that the populace feels that the national honor is involved. Since the death of Emperor Meiji it has been increasingly difficult to control popular agitation and the signs of unrest now are unmistakable.

Henry Flagler Dead

[Associated Press Cable]
WEST PALM BEACH, Florida, May 20.—Henry M. Flagler, partner of the Rockefellers, is dead after a long illness. He is believed to leave a large fortune.

STATISTICS FROM VANCOUVER SHOW CHINESE EXCEED

[Associated Press Cable]
VANCOUVER, B. C., May 20.—Figures on Japanese and Chinese immigration at this port for 1912 show that the Chinese were far the more numerous. Of the 7745 Chinese who entered the port as immigrants, 376 were students. The Japanese immigrants numbered only 400.

KAUAI PINES TO BE PUT UNDER A QUARANTINE

As a result of the blight that has attacked the pineapple crop on Kauai the board of agriculture and forestry yesterday afternoon determined to establish a quarantine on the fresh pines of that island.

A regulation, establishing a rigid quarantine and inspection, prohibiting the transportation of the fruit not only to Honolulu but to the other islands and to the coast is in preparation today and will be adopted by the board at its meeting next Thursday.

The quarantine is to remain in effect for an indefinite period. It is urged as an emergency preventive measure to check the spread of the mysterious disease that is threatening ruin to the fruit growers of the Garden Island. As yet the experts here do not know the nature of the trouble, and whether it is a serious fruit infection. If it is found, on later careful examination and experiment, not to be infectious and merely a local difficulty due to climatic or soil conditions, the quarantine will be lifted.

WILL RECONSTRUCT MAHUKONA WHARF

After visiting the new wharf at Hilo, the wrecked wharf at Mahukona and a number of smaller piers and landings along the entire coast of the big island, Supt. J. W. Caldwell and Engineer A. C. Wheeler, of the department of public works, returned this morning from Hilo.

Superintendent Caldwell has ordered a new set of plans to be prepared for the reconstruction of the Mahukona wharf, and some of the details of this were to be discussed at the meeting of the harbor commission this afternoon. He reports the work on the Hilo wharf is progressing satisfactorily. He also conferred with the members of the Hawaii belt road commission, of which he is now an ex-officio member.

A ten year old boy ran through the mountains of West Virginia for a mile and saved a passenger train from going through a burning trestle.

BARTLETT DIVORCE CASE BEING TRIED

Charles G. Bartlett, manager of the Honolulu Brewing & Malting Company, this afternoon brought suit in Judge Whitney's court to obtain a divorce from Mrs. Ora E. Bartlett, claiming desertion as the basis of his action. Bartlett alleges that his wife left him Jan. 17, 1912, and has since refused to live with him. Mrs. Bartlett is at present in San Francisco and papers have been served on her in that city.

The couple was married May 1, 1907, at San Francisco. Since the papers have been served on her, Mrs. Bartlett has made no answer to the complaint, and Bartlett is asking for an absolute divorce. The case was taken up by the court at 2:30 o'clock and as yet no decision has been made.

INDICTED FOR MURDER

The federal grand jury this afternoon returned two indictments against Paubista, Domingo Rodriguez, Miguel Manigbas and Celestino Manolo, the Filipinos implicated in the tragedy enacted recently at the Kahauiki store which resulted in the death of Lai Ah Kam, proprietor of the store, and Lum Lin, his wife, charging them with murder in the first degree. Following the report, the jury was dismissed from further duty until Sept. 1.

SUGAR
Alexander & Baldwin received the following sugar quotations today:
Hawaiian: 3.29 basis; raws 3.42 for July Cuban delivery.
